Walking down an L.A. street  
Watching asses movin' sweet  
Of girls that look  
For just one thing  
Which long haired boy  
Is who now?  
Which band get their jeans  
Scratch the action for satisfaction  
They want more ice cold feelings  
They want more  
They go screaming  
Screaming for more  
She wants a ride on my guitar  
Got cotton brains and money  
And a key for every star  
Hit-up by a blue-eyed girl  
Don't need her, don't need her  
Messin' up my world
