The less i feel is the less i know  
I don't mean to tell you so  
Cause now i've gone out in my mind  
And my mind aches the way you do  
I just wanna see it through  
Cause all i have is when i go alone

The less i feel is the less on top  
I don't mean to make you stop  
When everything is going fine  
The fort i build is where i die  
But i don't mean to make you cry  
But all i have is when i go away

I'll practice in my room  
You'll watch the things that i do  
I'll practice in my room  
When i leave  
Girl don't you know i'm gonna miss you

The less i feel is the less on top  
I don't mean to make you stop  
Now that i'm not by your side  
Cause all this time i'm wasting now  
I just can't be headed south  
Got to do it in my own damn way

I'll practice in my room  
You'll watch the things that i do  
I'll practice in my room  
When i leave  
Girl don't you know i'm gonna miss you
