Ive got this thing about you now
I tried to understand
So baby let me show you how
You changed my life the day you showed up at my door
Ive got this notion in my head
If i go forward then i jump back again into my routine of
misery
I try harder just to get along today
Cant see things through
Got just one chance left
And im barely hangin on
What can i do

When im with you
It's all i got
My forbidden pleasure and a life of smoking pot
It's who i am and i can't change
The stops have been removed
But then our lives are still the same again
That's who i am

Our days on earth are short i know
With a little new direction
I can find out where to go
And maybe when i get there
Baby I'll see you

Oh mia just wanna see ya
Cause your my left footed girl
Oh baby
Just don't say maybe
Cause you're my left footed girl
