the less i feel is the less i know  
i don't mean to tell you so  
cause now i've gone out in mind  
and my mind aches the way you do  
i just wanna see it through  
cause all i have is when i go alone

the less i feel is the less on top  
i don't mean to make you stop  
when everything is going fine  
the fort i build is where i die  
but i don't mean to make you cry  
but all i have is when i go away

i'll practice in my room  
you'll watch the things that i do

i'll practice in my room  
when i leave  
girl don't you know i'm gonna miss you

the less i feel is the less on top  
i don't mean to make you stop  
now that i'm not by your side  
cause all this time i'm wasting now  
i just can't be headed south  
got to do it in my own damn way

i'll practice in my room  
you'll watch the things that i do  
i'll practice in my room  
when i leave  
girl don't you know i'm gonna miss you
