there is a man just a prick just looking at me wanting to
set my soul free said i'll follow my own mistakes and
not buy your fucked up religion the bible is the way you
spread your hate the rich look good and hear fine
things misions in the cold make sense when i get
finished through and through stop open your eyes!
stop open your eyes! just when i stop and wonder why,
how birds can fly why can't i? no more hesitation let's
start the penetration if not then i'll go home come on
punks now gather round, come look at our pretty town
all those pigs they piff and slag busting kids for
trespassing just passed here, won't go to jail singing
songs while passing our bail they roped me up and
took my savings fuck them up they are just...pigs stop
open your eyes! stop when i stop and wonder why, how
birds can fly why can't i? no more hesitation let's start
the penetration if not then i'll go home
