I don't wanna hear you  
I don't wanna see you  
Whoaaa.....  
Whoaaa.....

I'm a soldier all alone  
In a world unjust and poor  
Bridges are built  
Made for bombs  
Tell a story of black and white

I don't wanna hear you  
I don't wanna see you  
Whoaaa.....  
Whoaaa.....

There's two sides to each story  
Listen to what we're sayin'  
My visions with you, gone  
Show me what its like

To be empty

I don't wanna hear you  
I don't wanna see you  
Whoaaa.....  
Whoaaa.....

Explode the scene  
You kill the crowd  
Nothing matters anymore  
Your time has been and gone  
Strap me down  
An make me listen
