Now I see my body lying dead  
With a trace of bullet through my head  
No more bleeding, no more breath  
Now my face is a mask of death  
But I'm still near  
Is it good or bad?  
All I ever have done were mortal sins  
Whisky, women, blood and all those things  
Fiends from hell must come for me  
But there's no one else around  
I am left alone  
What's wrong?  
I'm dead but not gone...  
I'm dead but not gone...  
I'm dead but not gone...  
I'm a ghost!!!  
Nothing stops me I can walk where I like  
I can go through walls and I can fly  
No one sees me, no one hears  
No one feels that I'm near  
Now I'm gonna find  
My killer.  
Found that man but my revenge has failed  
I can't even scratch him with my nail  
I'm less dangerous than the air  
I'm here but I'm just nowhere  
To my killer I can do  
No harm.  
God or Satan you must let me out  
I'm surrounded with indifferent crowd  
It's a kind of prison cell  
I am in my personal hell  
My soul is lost in the world  
Of alive.
