Well you ain't going anywhere
You've got to stay with me
No you ain't going anywhere
You've got to stay with me
You only might be going somewhere
Over my dead body
So kill me kill me kill me
Take your gun and shoot me
Take the knife and stab me
Take the axe and chop my head off
Take the poison put it into my drink
And go anywhere over my dead body
Now I want you to leave me
But you stay with me
Yeah I want you to get off
But you stay with me
You say the only way you may go
Is over my dead body
So you ain't going anywhere
Though I want you to
No you ain't going anywhere
Though I told you to
You say the only way you may go
Is over my dead body
