Well it's one for the witchcraft, two for the night
I'm a creature of magic kind
You get mad when I cross your pass
I am scaring you to death
I'm scaring you to death
'Cause I'm a black cat
Baby don't move my way
Yes I'm a black cat
Baby you stay away
'Cause I'm a black cat...
I gotta cold green fire inside my eyes
I look like demon in disguise
I gotta poisoned claws and poisoned teeth
Dogs are running away from me
Running away from me
I don't need no pity that I am stray
No one's compassion no place to stay
You just don't know what I can do
Believe those tales they tell are true
Those tales are true
