I live in a stinky town
Where everything is upside down
Junk noise fuss speed
Pretty women down the street
I live in a stinky town
Crazy people are all around
It's a place to be
For the weirdoes like you and me
Heavy traffic in the streets
Crazy grown-ups loony kids
I inhale exhausts
And the people's dirty thoughts
Then may night comes in the light of moon
You taste the spirit of chestnut bloom
Drink it bottom up
It will blow your top
Stinky town stinky town
It's a kind of craze
Running all the ways of stinky town
Stinky town stinky town
What a lovely place
We're living in embrace of stinky town
I live in a stinky town
My mind cannot be a country-bound
I'm an urban kid
And I don't regret a bit
I live in a stinky town
Where crazy people are all around
It's a place to be
For those like you and me
