"Summertime Rock"

Visit "[Summertime Rock](#)" on MotoLyrics.com

Well, it's a summer season, it's a holiday
You gonna lie on the beach and drink beer all day
And in the evening time as the heat abates
You go to little place where they know how to shake
Now as your hormones run amuck
There ain't no cure for the summertime rock
The sun is shining in the sky, it hits you straight to the
head
Your blood is starting running wild, as wild as you can
ever get
It's hot, hot, hot, man, it's really hot
You're nut, nut, nut, man, you're really nut
