"Tonight I'm Alone"

Tonight I'm silently sitting home
There's no one else inside
Nobody comes nobody phones
Despite late late night I can get no sleep
'cause in the big big world I feel myself alone
Oh yeah tonight I'm alone
Yes tonight I'm alone
I am living in the big big town
My place is situated in the big block of flats
But actually in big town there's not much love
And sometimes loneliness is
The only thing that one can get
And if you would go out
And look up from the street
You'll see the lighted up window in the dark house
It's me I'm smoking my last cigarette
Then taking my guitar and beginning to howl
