I'm fed up with my TV set  
I'm fed up with the internet  
I'm fed up with the Hollywood shit  
But still there's something I wouldn't quit  
I can quit cleaning teeth  
I can quit wiping ass  
I can get bored of the life and the death  
But I'll sing this song here's what it says  
When I need a thrill  
I won't take no pill  
And when I need a shock  
I'm just gonna rock  
And I won't get tired  
No I won't get tired  
Well I won't get tired  
No I won't get tired  
No I never never never  
Never never get tired to rock  
Give me bass slaps and guitar licks  
Give me party with cats and chicks  
Give me drum rolls give me some beer  
Let me sweat all over here  
Give me boogie and give me swing  
Give me every rocking thing  
Give me ska give me punk  
Give me hardcore if you have some  
Old-way rockabilly rocks me hard  
Wild wild psychobilly wrecks my butt  
Give it fast or give it slow  
Something new or something old  
Something new and something old
