And the going get tough

She just never gives up

Yo notnice dem fi kno am an Indian

Cyaa figet weh mi come from

When every girl cut and forgot about me

When me broke like dog she was by my side

She brought back what I thought had died

Strength, dignity, love and pride

If I was a Christian and loving her was sin

Then I would backslide, back then I shoulda

Show how much you ment to me, baby girl I tried
