Oh God where were you
When I was dyin by the needle?
And oh God where you were
When I had no hope in my hands?

I will turn from you
When you need me most...
I will torture you
When you're feeling alone...

Oh God where were you
When I was down and defenseless?
And surely this fix will get me through
I can't trust you in the end

I will turn from you
When you need me most...
I will torture you
When you're feeling alone...

I have crawled through your thorns
Just to feel alright
Do I get back those feelings that
Feel so right?
And comfort is pain
But it hurts just right
It hurts just right...

I will turn from you
When you need me most...
I will torture you
When you're feeling alone...

I have crawled through your thorns
Just to feel alright
I have crawled through your thorns
Just to...
