south of antarctica
i sit on top of the world
who knows what
is below
we are the only ones
and i feel
everything's all right
and i know
our future is bright

south of antarctica
i sit on top of the world
who knows what
is above
we are the only ones
and i feel
everything's all right
and i know
our future is bright

feel the sun in your eyes
no, we can't, can't disguise
the feeling to have inside
know yourself
you'll be all right
you'll be all right
you'll be all right
you'll be all right

feel the sun in your eyes
(and i feel everything's all right)
no, we can't, can't disguise
who am i
deep inside
(and i know our future is bright)
be yourself
you'll be all right
you'll be all right
