"Impossible To Win"

You're not justified
To say those things
That you say
You're not organized
In the games
You play

[Chorus:]

Start thinking about the future
Stop thinking about yourself
We are the ones to blame
But you shift it on someone else
These f**ked up situations
I'm always in
Making things complex and
Impossible to win

Trying to figure out
Problems I've already solved
Don't want anything
Don't want to be involved

[Chorus]
