Chained and shackled to the Mirror of Retribution  
They tied up tsing-guan's lonely soul  
With void and mass confusion

The book of life and death is closed:  
Wheel of reincarnation recessed  
The ten courts of hell exposed, only dead silence is  
left.

Trapped in this place,  
For hundreds of millions of years, the ultimate fear,  
without a trace,  
His motherland disappeared.  
The world disappeared
