"World Keeps Spinning (A Chronic Future)"

Stationed in hollow basics
This world will never face it
We'll keep participating in community wide face lifts
To cover up our problems
One government won't solve them
I'm on this groove to soothe this wrinkled face of earth
revolving
I passed an adequacy test
Actual fact is I'm impressed
At the pattern of people popping up to help us do the
rest
These are not movie sets
These are physical streets
Becoming more tired every time history repeats

Now it seems that we've run out of time
The world keeps spinning on this fragile mind
Now it seems that we've run out of time
Oh the world keeps spinning what you said
The world keeps spinning what you said

I think they got it planned
How to ruin our lives
Turning truth into lies
We approve the disguise
They're just moving our eyes
We just simply don't stand
Up for ourselves against the upper hand
And pull it out their plan

Now it seems that we've run out of time
The world keeps spinning on this fragile mind
Now it seems that we've run out of time
The world keeps spinning what you said
What you said yeah
You will never know

Where are we going
I don't know anymore
Where are we going

I don't know anymore
I'll just continue to circle
Why?
It's comfortable doing what been done before
