Long lies the day  
And heavy lies the sound  
Her tears crash to the floor  
And her cries  
They cut to my veins

Now to sit here in silence  
Will only make me feel violent

And you said  
You said you would wait  
But you justify  
Were we just something to break  
And I don't know  
How much more I can take  
I've watched you dry out  
And I've watched you die out  
You amplify this heartache and crush

Now I've reached down  
Just to find I'm little bit bitter  
I couldn't care to live or die  
But you can kill me  
A little bit quicker

Now I'm sitting here in silence  
And I feel a little bit violent

And you said  
You said you would wait  
But you justify  
Were we just something to break  
And I don't know  
How much more I can take  
I've watched you dry out  
And I've watched you die out  
You amplify this heartache and crush

It echoes and waves  
It echoes and sways

You said

You said you would wait  
But you justify  
Were we just something to break  
And I don't know  
How much more I can take  
I've watched you dry out  
And I've watched you die out  
You said  
You said you would wait
