"Luv Always"

Visit "[Luv Always](#)" on MotoLyrics.com

Meet me outside I've got to catch my breath
Put your hand out and light my cigarette
Lay down by the waterfall
Make a promise we'll never keep

I feel like I'm always falling back into you
And it leaves me hanging
Like drugs leave me empty
I only need you when I'm feeling sick

What a fix for an insecurity
Your a game called fuck me when I in need
Cuz I need to get high
I need to try and escape myself again

I feel like I'm always falling back into that you
And it leaves me hanging
Like drugs leave me empty
I only need you when

And there used to be this sense of self-control
But lately all these things have got me out in the cold
again

Meet me outside I've got catch my breath
Gonna fuck you again cuz I got no drugs left

I feel like I'm always falling back in to you
And it leaves me hanging
Like drugs leave me empty
I only need you when I'm feeling sick

Feel like I'm always
Why do I always
Come back and it's calling me
I'm falling back in to you
