SO YO EL ALBOROTADORE!

Class warpath (3x)

Yeah it's a godless life, here in the shade of heaven

So you gotta pick the best parts you can get

And with satisfaction i'm following my track

Can you feel my eyes burning in your back

Gotta make your stand 'cause life's a game

But if you learned the rules it's kinda easy to play

So i'll be the bomb that explodes under the sun

CHORUS:

I'm gonna take the money and run (2x)

I'm on a class warpath tonight

Another town, another bank to plunder

Another ville that's owned by the wrong man

The sheriff tried to put me six feet under

But now there's nothing left but his rotten bones

Gotta make your stand 'cause life's a game

But if you learned the rules it's kinda easy to play

So i'll be the bomb that explodes under the sun

CHORUS:

Make it all mine till the morning light

CHORUS:

My own war, my own war class warpath tonight

Class warpath

Stop. money or life - i take what i can get

That's right man - BANG!
