I got my head in the clouds  
and I kiss the dirt  
lost my heart and i'm badly hurt  
and if I kick the bucket  
I leave a questionmark

I heard the lies and i learned the facts  
the naked truth cuts like a double axe  
all this and more just get me hexed

struck the bullet home, I'm on a mission  
here is a small advice  
and you better learn your lesson

all this and more is what you get boy  
(all this and more)  
all this and more is what I last for  
(all this and more)  
it's just a game that I'm going for  
(all this and more, this and more, this and more)  
all this and more is what you get

so sick of the lies and the cover up  
i'm on a dead end cruise  
and i'm waiting to crash  
like a starship trooper in a wreckin' rush  
i set up a trap to blackmail you  
gonna steal your life  
and your golden spoon  
get prepared cause payback-time comes soon

struck the bullet home, I'm on a mission  
here is a small advice  
and you better learn your lesson, will you

all this and more is what you get boy  
(all this and more)  
all this and more is what I last for  
(all this and more)  
it's just a game that I'm going for  
(all this and more, this and more, this and more)

all this and more is what you get

What you get!  
Is what you get!

struck the bullet home, I'm on a mission  
here is a small advice  
and you better learn your lesson, will you

all this and more is what you get boy  
(all this and more)  
all this and more is what I last for  
(all this and more)  
it's just a game that I'm going for  
(all this and more)  
all this and more, this and more)  
well, is it more  
all this and more is what I last for  
(all this and more, this and more, this and more)  
all this and more is what you get

(come Stanly Buzz)?
