

Mad Sin "Danger Zone"

Visit "[Danger Zone](#)" on MotoLyrics.com

The ghosts of the past come haunting me
I'm thinking about times that used to be
I past the park where i first got laid down by the canal
Where i met my mates
We were the kids of the wall town
Misfits of society and it felt like no way out
But we shouted it out proud
CHORUS:
Smash down the world
In the dangerzone
Smash down the world
And we were not alone
I don't mind the pain and the sorrow
Smash down the world
In the dangerzone
Smash down the world
And we were not alone
And i still don't mind the pain
Fighting, stealing, drinking and dealing
To scared to she'd a tear and show a feeling
We were young but we saw through your lies
I raised the clenched fist with bloodshed eyes
We were one for all and all against this world
What ever happened back then, we still haven't turned
into men
CHORUS:
Just out for fun always hated your schools
Chased by the cops never believed in your rules
But what you are is what you get
That's what my mother said
