I know our time has passed and maybe we should just
let go
But your love's the only place I've ever felt at home
And I know we're both confused but I need to be with
you
Like you need to be with me, now I, I, I
Never meant to make that rain fall from your eye, eye,
eye
When I hold you close, don't want to say goodbye, bye,
bye
So I gotta make this change, I don't wanna feel this
pain
Got me drowning in the rain...

When you're gone, the blue skies turn to rain
And I can't stand the pain of losing you
The rain keeps falling through the sky
If there's no you and I, then all we have are dark clouds
all around
The rain keeps falling down

You know how I feel about this, I don't wanna see you
go
'Cause you're the only one I'll ever let get close
After all that we've been through, I don't know what
else to do
We've got so much to lose, now I, I, I
Never meant to make that rain drop from your eye,
eye, eye
Everyday that you're not here, the sun don't shine, ine,
ine
So I gotta make this change, I don't wanna feel this
pain
Got me drowning in the rain...

When you're gone, the blue skies turn to rain
And I can't stand the pain of losing you
The rain keeps falling through the sky
If there's no you and I, then all we have are dark clouds
all around
The rain keeps falling down

It's raining, it's raining
'Cause you are not here with me
It's raining, it's raining
And I just can't let this be
It's raining on you, raining on me
Blue skies turn to gray

Rain, rain go away, never to return again
Rain, rain go away, go away, go away
Rain, rain go away, never to return again
Rain, rain go away, go away, go away
