You could be a two-time loser  
Everybody used to use and abuse ya  
But maybe you can turn your life around  
I can see that you act like you don't care  
In a dead end job going nowhere  
Don't you know that only you can keep you down

Coz miracles do happen  
If it's feeling wrong you can make it right

(Chorus): It's like walking on water  
You can move mountains with some faith  
Like walking on water  
Don't you see  
What you can achieve  
If you believe it in your heart  
You can walk on water

You can be the man in the mansion  
And still feel no better than a has been

If there is no one special in your life  
You can be as broke as a joke  
And know inside that you'll always cope  
If you're the hero in your childrens eyes

Coz miracles do happen  
If it's feeling wrong you can make it right

(Chorus x 2)

Walk on water

(Chorus)
