I still can't believe till this day
That he's gone, passed away
His life was taken in blink of an eye
All I can ask myself is 'Why?'

Cold as life, harder than you
That's how he's remembered in everyone's view
That's how he'd want it, that's how we want it too
Cold as life, colder than you
Like that

He was not an angel and that we know
He had a heart, he was our bro'
His life was taken in the blink of an eye
All I can ask myself is 'Why?'

Cold as life, harder than you
That's how he's remembered in everyone's view
That's how he'd want it, that's how we want it too
Cold as life, colder than you
Like that
