I've been waiting a long time to give you a piece of my
mind

You can run but you can't hide from who you are inside
And you don't want to confront me

No, I know your kind
You've been runnin' the same old lies
Keelin' over on your mines

You'll see, it's all in a matter of time
You're gonna hafta confront me
We're all in this game, we don't believe
The loyalty comes for free
You only get respect when it's given out

Make no mistake, you're the enemy
Make no mistake, you are my enemy

Still here after many hard years
When will you realize
You can't kill what won't die?
They've tried but the strong survive

I'm only tellin' you one time, you're livin' a lie
You've been cryin' some words of gettin' tired
How can we talk with that closed mind?
You pass judgment, you cross the line

And you never confront me
'Cause we're all in this game, we don't believe
Loyalty comes for free
You only get respect when it's given out

Make no mistake, you're the enemy
Make no mistake

Check out the black down?
You don't know me
I never back off
'Cause you're my enemy
