"Hold It Down"

Enough time's been wasted and now I'm faced with our
realities
And what's to come of this scene
So many come and go, some have disgraced it
I think, it's time we take a stand show them what we
mean

You can't stop this, this thing of ours
Hold it down
This things is ours, hardcore is ours

Time after time, line after line
I must express the truth 'cuz that is what we stand for
Some live to lie they will defy and deny our roots I pay
no mind
You know, who we care for

And I'm not only speaking for myself, I can't
I hope, I speak for everyone else out there
'Cuz a lot of people think that we don't care
But they can't stop what I'm bringing, can't stop what
I'm bringing

Tryin' to make a change, do what I can
They can't stop what I'm bringing, can't stop what I'm
bringing
You can't stop what we're bringing
Tryin' to make a change and hold it down 'cuz we can
