All you wished was to block my goals
All you did was strenghten my soul
And what I wanted from you
I could not get
So dreading our deaths is how we
Choose to live

You're the one who feeds my rage
You're to blame fror endless pain

It's in your nature to
Destroy my dreams
It's in my heart to
Damage my means

Because I feed off your fire
Day after day
It's you who I live for until I shit
On your grave

Chorus

So shall it be the last laugh on me ?
When you lay there to rot, I breath

Chorus
