It's youâ€¦conâ€¦yeahâ€¦.conâ€¦Madconâ€¦..Ludaâ€¦

Ludacris:

Conjure on the rocks is my drink now
So I'm ready to party and get down
I'm a VIP and we so elite now
Pick you up in the convertible, let's meet now
Anybody wanna rumble in the streets now
All the punks jump up to get beat down
Helluva night, we going with no sleep now
Madcon and Ludacris, let's see now

Madcon:

I can't believe my eyes (I jumped up surprised)
Oh my Lord (You're anything but average)
Just looking in your eyes (I wonder who you are, n')
I lost control (I'm ready to come grab it)
It's hard to believe (I must take the chance)
You in front of me (so I grab your hand n')
Let's ride, let's ride, let's ride
(Girl, we ride into the sunset)

I never realized (I never knew I had to)
My Lord (you got that good stuff)
You're my heart and soul (are you my next chapter)
Can't lie (I know you're one of the good ones)
I'm looking in your eyes (I rise a few feet)
I need to know ('cause I ride for you 'n' me)
You and I-I-I
I-aight *1

Chorus

Hey girl, let's turn the club out
You and me getting down
DJ, turn it loud, we having one helluva night

We having one helluva night
We having one helluva night
You and - you and me having one helluva night

Hey boy, let's turn the club out
You and me getting down
DJ, turn it loud, we having one helluva night
We having one helluva night
We having one helluva night
You and - you and me having one helluva night

You-you-you and I,
Set-set the place on fire
And you're oh-oh-oh so fine
We rock the place all night
You're hot-hot-hot
We 'bout to get down-down-down
So you could hit 'em high
Or you could hit 'em low
Jump up to get down
So we can get low

Hey girl, let's turn the club out
You and me getting down
DJ, turn it loud, we having one helluva night
We having one helluva night
We having one helluva night
You and - you and me having one helluva night

Hey boy, let's turn the club out
You and me getting down
DJ, turn it loud, we having one helluva night
We having one helluva night
We having one helluva night
You and - you and me having one helluva night

Ludacris:

Yeah, we having a helluva night now
And the club is ready to ignite now
Don't stop, just tell them to get hype now
And that incredible body, I want it right now
Seeing you was such a beautiful sight now
Let me set the mood and turn the lights down
I wanna pick you up and lay you right down

And I hope you ready to take flight now
'Cause Ludacris lay the pipe down
Keep it tight now,
Night, night now

Hey girl, let's turn the club out
You and me getting down
DJ, turn it loud, we having one helluva night
We having one helluva night
We having one helluva night
You and - you and me having one helluva night

Hey boy, let's turn the club out
You and me getting down
DJ, turn it loud, we having one helluva night
We having one helluva night
We having one helluva night
You and - you and me having one helluva night

Outro:

It's a helluva night,
Helluva night
Hellu hellu, helluva night, helluva night
Hella, hella, helluva night, helluva night
Hella, hella, it's a helluva night, helluva night

We're having one helluva night
