I never thought that you could be that way,
Friends from young and now you've changed,
Love and trust has turned to hate,
If I'd've known you'd do me over,
Decieving me in a big way,
I never thought that you'd betray

Why did I bother?
Shouldn't have bothered,
Tryin' to keep my cool with you,
Tellin' lies I could not see through,
Why did I bother?
Shouldn't have bothered,
Like sisters I would kill for you,
Now I know your words are not true

Now you can't spend all of your time,
With dirty water on your mind,
Can't see through unless it's blue,
The bottom of dirty water,
You're like the devil in disguise,
Double faced and telling lies,
Can't see through unless it's blue,
The bottom of dirty water

As evil thoughts dwell in your soul,
Driving your mind into a hole,
Filled with spite and tension,
You give me nothing but deception,
What's more to say, there's not much more,
Could it be just like before?

Why did I bother?
Shouldn't have bothered,
I was blinded like a fool,
Thinking that those lies were true,
Why did I bother?
Shouldn't have bothered,
Only fate can make me see...
Stay the hell away from me

Now you can't spend all of your time,

With dirty water on your mind,
Can't see through unless it's blue,
The bottom of dirty water,
You're like the devil in disguise,
Double faced and telling lies,
Can't see through unless it's blue,
The bottom of dirty water,

Now you can't spend all of your time,
With dirty water on your mind,
Can't see through unless it's blue,
The bottom of dirty water,
You're like the devil in disguise,
Double faced and telling lies,
Can't see through unless it's blue,
The bottom of dirty water,

(Spoken):

That's the end of your game
And it's always the same
It comes to stop and we float to the top
Two channels
Of dirty water

On your mind,
Dirty water,
All the time,
Dirty water,
On your mind,
Dirty water,
All the time,
Dirty water

Now you can't spend all of your time,
With dirty water on your mind,
Can't see through unless it's blue,
The bottom of dirty water,
You're like the devil in disguise,
Double faced and telling lies,
Can't see through unless it's blue,
The bottom of dirty water.
