Blame!
Everyone!
But!
Me!

Everyone knows, chaos will come
Riot of one, rise up your your torch now

Everyone knows, chaos will come
Riot of one, rise up your torch and spread the word

Skies painted red, turning to black,
Life has come to an end
The vultures are, chasing us in our way back
The vultures are, chasing us in our way back home

(Oh, now our time is over!,
Our time is running out!)
LET'S GO!

The cries are not worthless
What a beautiful world
But I think it looks better this way
Burning down, down to the ground
