God please help me
(Give me the medicine to kill the pain)
I never thought
(You will care of what I've done, I've done)
Please take the stars show me how to follow
(The lights In my way back home)
Let wind whisper the right way to go
(I know it's hard but we must try)

Just Once, to go
Just Once, so

Nevermind you're done the life is gone
But dead will not come now
Shut down your hopes
But hold hard the feeling
Let's fill your veins with love

Hold on, just keep on fighting(wake up)
Cut down your arms will not,
Solve those troubles that take you from inside to kill
Your hopes (move on)
Hold on just keep on fighting(wake up)
Cut down your arms will not,
Solve those troubles that take you from inside and
they're killing
(Move on)
(You)

Growing love inside will save us
Our souls will be redeemed and forgiven

Now we are on our way straight to heaven
This kiss will send us off
Die young live forever, let's die together
Never alone together forever

Nevermind you're done the life is gone
But dead will not come now
Shut down your hopes
But hold hard the feeling
Let's fill your veins with love

And if the angels ask If we came alone
We never meet us in life we just known

Let's fly together lets make love
This kiss will send us off
Let's fly together lets make love
Never alone together forever.
