With her beauty in one hand
And in the other my heart
With a shield like a rose.

She only want her love back
And with blood will prove that.
Nothing matter between our life.

She'll fight for you
And the brave of her eyes can destroy any pain
She'll fight for you
Without cowardly she get back her love at home

Nothing, nothing can destroy the pact of the past
In those times when they play to be lovers
Now pray to some divinity to be together
She to kiss him, he to hug her again.

Without forgive to that evil force
That evil word, the one who separate them.
In a cold memories rest in peace the soul of our love
Give us a reason to carry on

She'll fight for you
And the brave of her eyes can destroy any pain
She'll fight for you
Without cowardly she get back her love at home

One fucking reason to carry on
Give me a light to save our soul now
Let me know who the hell we are
And make me stronger to kiss his eyes

Carry on
