I don't know what I want from this life  
I know I want more than I have  
And could ever hope to grasp  
And I will lose control if I don't  
Speak my mind and come up w. a  
new way of life  
Chorus  
Sink and fall under again  
Only to come up begging 4  
What u already had  
You think that you and  
All your friends are so damn cool  
Well who the hell are you anyway  
I know this place where all the  
People get along - too bad it's only in my dreams  
And then there's u you stupid bitch  
Walking down the hall and  
Calling me names
