Your smile is like a sun through clouds shining over me  
You can make my heart beat so loud when you touch  
me  
But I wonder do you still love me as much as before  
And I wonder do you think of me sometime

In your day, once a day  
Oh you stay on my mind  
No, I'm not being kind  
It's true  
I love you

I feel just like a child full of laughter when I'm beside  
you  
And my heart beats even faster there's nothing I can  
do  
But I wonder do you still want me as much as before  
Baby [is] I hold you so close in my arms

On that day, [loveful] day  
We won't waste any time  
Together we'll find  
It's you and me  
And love
