Oh yeah turn it on your night...

You dancin' dear my friend

You make me feel so bad

I see you everywhere

"I love you" say right there

And I did I wanna do

The things that you mean to do

And I tell ya give a dench

Ho, I want more

I do what I want

I do what I want ya babe

I do what I want

I do please don't let me there

I don't mind I don't care

But love into the air

I do what I want ya babe

I do what I want

I do please don't let me there...
