Laying on the dock again  
Watching lightning strike somewhere  
I've never been even since  
I used to lay here as a kid with family and friends  
And nothing mattered then but happiness  
I've been around the world since then  
And I've loved and lost, I made some friends  
I've got regrets just like the rest  
But I learned something critical  
Ya can't buy back a second ago and why would you?  
'Cuz this one's new

You know we don't know where we're going  
We don't know what will happen.  
But that'll never matter to the moment we have here  
You know we only have to live, love and laugh through  
The good times and the bad too  
Your whole life's up to you

It's been a long way from the top  
But the top's not what this life's about  
Plus that was then and this is now  
Been on the edge but I stepped back  
Because they were right and that too passed  
The hardest times never last

You know we don't know where we're going  
We don't know what will happen  
But that'll never matter to the moment we have here  
You know we only have to live, love and laugh through  
The good times and the bad too  
Your whole life's up to you

Tell me what you're thinking about, right now  
Tell me are you happy or sad and why's that?  
Did you know where you'd be here now a year ago  
Tell me did you plan it out, how'd that go?  
All I know is I don't know if tomorrow's gonna come or  
go  
So why waste your time and energy on things like  
Envy and shame, guilt, hate or jealousy?

Don't waste your energy  
The past will never change

You know we don't know where we're going  
We don't know what will happen  
But that'll never matter to the moment we have here  
You know we only have to live, love and laugh through  
The good times and the bad too  
Your whole life's up to you
