"My Present Darkness"

Visit "[My Present Darkness](#)" on MotoLyrics.com

The night was black and blue moonlit, with endless
memories
The future was so clear, so
You'll never call me again
Silence played so blatantly
Never she'd a tear

I won't accept the facts
Never take you back
You know I want you to
Your heart I can't track, or counter-act
What is left to do

If I thought I knew what you want to do
I wouldn't have started this relationship with you

You tried to hide pain I felt
Heal the damage that you delt
Window breaking in my veins
Wish you felt the same
As I weap myself for weeks
Touchers always at it's peak
Fake monopoly of hate
Shadows darken me through fate
