We walk past a dead end street  
Atop the hill so we can be alone  
Under the moon, it's beautiful  
The stars clear the black of night when I'm with you  
And nervously, I take your hands  
And promise you, I'll take you for a ride

And someday, you will have it all  
You and me, we're gonna be stars

We'll runaway from everything you hate  
Runaway to everything you wanted  
Take my hand, let's get famous  
We'll runaway from everything you fought  
Runaway to everything you loved  
Take my hand, let's get famous

I'm amazed how things can change  
How the real world can chase our dreams away  
And how did you give up so easily?  
'Cause I'd rather make 'em bury me

So let's runaway from everything you hate  
Runaway to everything you wanted  
Take my hand, let's get famous  
We'll runaway from everything you fought  
Runaway to everything you loved  
Take my hand, let's get famous

Our names in light across the sky  
It's beautiful  
And our whole lives will be headlines  
Across the whole world

I can't let you live, you're just a ghost  
And I'm feeling sick inside my head  
You won't feel a thing, I'll cover up your eyes  
As I bury you

I know I'll bury this under drowning eyes  
And I'll carry him till the day I die

We'll runaway from everything you hate  
Runaway to everything you wanted  
Take my hand, let's get famous  
We'll runaway from everything you fought  
Runaway to everything you loved  
Take my hand, let's get famous
