sometimes i walk a little faster on the school path way just to get next to you, some days i spend a little extra time in the morning just to clean up you, guess you don't clean up guess you liter but that's a bad thing for the earth, so pick up things when you're done save the earth and also the sun, I'm unusual not so typical way to smart to be waitin around planting flowers saving the earth, i can help an animal in need i might even be a nature girl, i might even be a nature girl who saves the earth!
