Inside I know that you are mine  
Deep inside I know it's for a while  
In this time you give me so much to smile  
It's alright I will be by your side

Moonlight will shine wherever you sleep  
It's alright, it's alright  
Soon I'll be there wherever you need  
It's alright and it's alright

Tonight I want you to see clear  
For all time you are my closest dear  
I can't describe dimension of word's not high  
It's alright you know I'm on your side

Moonlight will shine wherever you sleep

It's alright, it's alright  
Soon I'll be there wherever you need  
It's alright and it's alright

I'll go where you will go  
So far  
And I will go with you so far  
You know  
I'll care for you
