"Into The Sun"

Guess I'm feeling kind of black.
Wanna get it over into my mind.
Days are passing out of luck.
Wanna get it over, over for now.

But I feel you and I guess you woman
and I place you into the sun.
But I feel you and I guess you woman
and I throw you into the sun.

Think I'm getting outshined.
Broken words don't touch me.
I think I'm alright.
Have this sense of happiness.
I wanna make it last girl
It's all in your hands.

But I feel you and I guess you woman
and I place you into the sun.
But I feel you and I guess you woman
and I throw you into the sun.
