Everything that I tell you, girl, every word that you hear

Every little whisper, let me make myself clear

There ain't no lies to deceive you, I love you too much
for that

Every word that I say is true, you can believe me on that

My friends tell me jealous lies

Now I'm getting my goodbyes

Life without you, my dear

Was dull, as dull as can be

I ask you, my love, why not take me now

Not to leave me in misery

(Saxophone!)

If you take in all they say,

I guess I'll be on my way

Please, my darling, it's not true

I don't know this girl called Sue

Sue's a name I have not heard

I lost my girl from that one word

Will she come back, I just don't know

And I'm takin' a heavy blow, oh

I've got myself together

I can't go on in this cold weather

Christmas comes but once a year

It's a time of love and cheer

Your friends tell you jealous lies

Now I'm getting my goodbyes

No no no no, no no no no

No no no no, no no no no
