Wherever I go
What can I do
Im at a loose end since I split with you
Upped my best, tried hard to please
Now all I've got are my memories

What will I do now, heaven knows
Find another I suppose
Now you say you don't want to know

What did I do
Where did I go wrong
Since you left it's seemed so low
We made a good pair
Everyone agrees
Now all I've got are my memories

What will I do now, heaven knows
Find another I suppose
Now you say you don't want to know

What will I do now, heaven knows
Find another I suppose
Now you say you don't want to know

To break your follows
Your letters too,
Its just as if I never knew you

Boo hoo hooo....
