Petulant elbows, tiny kicking feet  
I've been waiting for this moment  
I'm on a roll  
I've spent infinity, counting silent sheep  
I don't need no more sleep, no  
I'm all ready to go

I think today is gonna be my birthday  
So I'm taking in the air  
As if it were my last

I've got nothing to lose  
I've got nothing to gain  
So just like where I'm coming from  
There's only one place to go  
There's only one place to aim

I'm sliding down rainbows  
Out into the wild  
Uncultivated child  
I'm taking in the sideshow  
Where angels heaven sent  
Prepare us for the main event

Now I'm gatecrashing into your scene  
Like it or lump it I'm with the team  
No invitation, pupil dilation  
A little bit pissed but hey  
It's only a dream

I ain't got nothing to lose  
I ain't got nothing to gain  
So just like where I'm coming from  
There's only one place to go  
There's only one place to aim

I'm sliding down rainbows  
Out into the wild  
Uncultivated child  
I'm taking in the sideshow  
Where angels heaven sent

Prepare us for the main event

I'm sliding down rainbows  
Out into the wild  
Uncultivated child  
I'm taking in the sideshow  
Where angels heaven sent  
Prepare us for the main event

I feel today it could be my birthday  
So I'm taking in the air  
As if it was my last

I ain't got nothing to lose  
I ain't got nothing to gain  
So just like where I'm coming from  
There's only one place to go  
There's only one place to aim  
Oh!

I'm sliding down rainbows  
Out into the wild  
Uncultivated child  
I'm taking in the sideshow  
Where angels heaven sent  
Prepare us for the main event

I'm sliding down rainbows  
Out into the wild  
Uncultivated child  
I'm taking in the sideshow  
Where angels heaven sent  
Prepare us for the main event

I'm sliding down rainbows  
Out into the wild  
Uncultivated child
