Don't run away, come closer  
I'll take you away from sadness  
Let me lift you out of the darkness  
Let me sooth your soul

The shadow of your smile stays on my mind  
And every song I hear reminds me of you

Every breath, every step, I'm closer to you  
Every day (every day), everything (everything) reminds  
me of you  
I can't forget you at all

Don't be afraid, come to me  
I know that you've been hurt and you're scared  
Let me fill your heart up with gladness  
Let me take you there

Everything you say stays in my heart  
Everything I do, I'm thinking of you

Every breath, every step, I'm closer to you  
Every day (every day), everything (everything) reminds  
me of you  
I can't forget you at all

Love means letting go of fear  
And I have nothing but love for you, my dear

I can't forget

Every breath (every breath), every step (every step),  
I'm closer to you  
Every day (every day), everything (everything) reminds  
me of you  
Every breath (every breath), every step (every step),  
I'm closer to you  
Every day (every day), everything (everything) reminds  
me of, of you  
I can't forget you at all  
I won't forget you at all
