It's like an I'm love with a stranger  
There's nothing familiar about your touch  
And I need a way to make sense  
Of this person I met  
As the chaos burns through my heart

Oh why  
Why  
I never felt such heat in my life  
The passion  
Ignites  
When we're dancing in the dark

When I move  
The floor is on fire  
When we step  
I'm aware of your desire  
When you speak  
Your voice, it gets me higher  
When we touch  
Our love is on fire

When I move  
The floor is on fire  
When you step  
I'm aware of your desire  
When we speak  
Your voice, it gets me higher  
When we touch  
Our love is on fire

I love your energy  
It's perfect chemistry  
Our hearts jump started  
Cuz that's what you do to me

Less talk, more play  
Let's move, embrace  
Let your heart lead the way  
Less talk, more play  
Let's move, embrace  
Let your heart just shine and guide away

When I move  
The floor is on fire  
When we step  
I'm aware of your desire  
When you speak  
Your voice, it gets me higher  
When we touch  
Our love is on fire

When I move  
The floor is on fire  
When we step  
I'm aware of your desire  
When you speak  
Your voice, it gets me higher  
When we touch  
Our love is on fire

Fire

When I move  
The floor is on fire  
When you step  
I'm aware of your desire  
When we speak  
Your voice, it gets me higher  
When we touch  
Our love is on fire

When I move  
The floor is on fire  
When you step  
I'm aware of your desire  
When we speak  
Your voice, it gets me higher  
When we touch  
Our love is on fire

Ha, ha, hoo  
A love on fire  
Ha  
A love on fire yeah  
A love on fire  
A love on fire

Ho, ho  
Ho, ho yeah yeah  
On fire baby
