Let's dance, you can do a little two-step  
I'll go anywhere that you step to, 'cause I'm following  
you  
My feet might be falling out of rhythm  
Don't know what I'm doing with them, but I know I'm  
following you

Unlikely as it is to me, on the floor with two left feet  
Let's boogie woogie till our hearts skip a beat, but  
who's counting?  
Encore, once again around the dance floor  
Romance is in the picture too, now I'm following you

Unlikely as it is to me, on the floor with two left feet  
Let's boogie woogie till our hearts skip a beat, but  
who's counting?  
Encore, once again around the dance floor  
Romance is in the picture too, now I'm following you
